

WAXX

FALL WINTER 2019

ORGANIC DOWN

With the natural quality of Sorona®, clothing becomes effortlessly soft and endlessly flexible. Whether you spin it, weave it or wear it, it's designed to inspire. It moves you past your limitations and it feels as honest and as comfortable as you do in your own skin. Thanks to Sustans® by DuPont Sorona® fiber, partly made of recycled vegetal components, the fabric used in our organic down jackets is as warm as real animal down, and help to protect our planet. Based on fermented corn fibers, Sustans® by DuPont Sorona® allows 30% energy savings and reduces greenhouse gas. Bio-polyesters are of organic origin, biodegradable, and offer a perfect alternative to oil based fibers. Our jackets are water repellent and delivers high thermo-regulation, with amazing body heat restitution even in extreme weather conditions.

RENEWABLE SOURCE

Made of 37% plant-based materials for a more sustainable lifestyle.

STRETCH & RECOVERY

Retains its shape and resists bagging for maximum comfort on the move.

INSULATION

Delivers lightweight, breathable warmth for taking on any challenge, in any condition.

PATENTED TECHNOLOGY

Made from a unique PTT molecular structure designed for maximizing performance.
